

Ideal for carports, canopies and gardens

## Solar LED floodlight SOL 800

### Technical highlights

- Can be operated independent of the power supply - ideal for carports, canopies, gardens
- 8 super bright LG SMD-LEDs for extensive illumination
- Solar module can be mounted on the sunny side, independent of the floodlight
- User-friendly assembly. After the assembly, the floodlight is simply plugged onto the bracket
- Floodlight and motion sensor can be swivelled horizontally and vertically
- Swivelling infrared motion sensor with max. 180° coverage and max. 12 m range
- Switch-on duration adjustable up to 1 minute
- Incl. li-ion battery 3.7 V/3.6 Ah with integrated overload and deep discharge protection
- Illumination duration with fully charged battery approx. 3 h
- Charging possibility for quick charging via power supply unit (not included)
- Solar module 200x160 mm - power 2.2 Wp

### Technical data

- |                         |                     |
|-------------------------|---------------------|
| • LEDs                  | LG SMD-LEDs         |
| • Functions             | Auto/off            |
| • Light output          | 400 lm              |
| • Light angle           | 120°                |
| • Min. light duration   | 3 h                 |
| • Battery               | Li-ion 3.7 V/3.6 Ah |
| • Light colour          | 6,000 K             |
| • Lifespan              | 50,000 h            |
| • Solar panel output    | 2.2 Wp              |
| • Protection class      | IP 44               |
| • Operating temperature | -10 to +45° C       |

**400**  
Lumen

### Scope of delivery/Art. No./ EAN No.

- Solar LED floodlight
- Solar panel
- Packed in a coloured cardboard box
  
- Type designation SOL 800
- Art.no. black: 1170950010, EAN: 4007123646425
- Art.no. white: 1170850010, EAN: 4007123646418
- PU: 1
- Available Q1/2018
