

Dummy security CCTV camera with infrared, battery-powered, MINI.

Marka: **Virone** | Symbol: **CD-4** | Ean: **5908254828799**

PRODUCT DESCRIPTION

The dummy security camera with infrared is a convenient solution to get rid of unwanted visitors on our premises. It will do a good job as part of the security system of your real estate – both inside and outside of the building. The device is a simple and inexpensive solution to increase the level of security in any place where, due to formal or logistic reasons, we are not able to use a real surveillance camera system. It comes equipped with a blinking diode powered by 3xAAA batteries (not included in the set). The dummy dome-type security camera in black color is made out of good quality materials and with attention to detail, which make

it look very realistically. Furthermore, it is easy to mount, therefore it can be conveniently self-installed in any chosen place.
