1. Projector with built-in Google TV stick, enjoy Google TV operating system
2. 1100 ANSI: The data comes from Wanbo laboratory, the brightness data is the nominal value, and the actual brightness is different in different environments.
3. Obstacle Avoidance: Due to the complexity of the environment, does not guarantee avoiding all obstacles.
4. In order to ensure the accurate use of the intelligent algorithm, please use it when the side cast angle<30°.
5. 26dB/m: The data is from Wanbo Laboratory, which is the average value measured at a distance of 1m in front, back, left and right of the machine.
- *Wanbo makes every effort at the time of publication to ensure the accuracy of product information it provides. Due to subsequent changes involving product batches, production, and supply factors, it may be necessary for Wanbo to make changes and adjustments to text and images so that they match the performance, specifications, indexes, and components of the actual product. Product Information is subject to such changes and adjustments without notice.
