Portable Monitor (Series A)

A1 Pro
(B2B Exclusive Model)

Brief introduction :

A1 Pro is a 15.6" FHD IPS portable monitor built to make everyday multitasking easier wherever you work. Weighing just 742g, it adds extra screen space without adding unnecessary bulk to your setup. USB-C and HDMI connectivity provide quick plug-and-play expansion across compatible devices, while the built-in kickstand offers flexible viewing angles for work, meetings, and entertainment.

Everyday Work Companion

1. Expand Your Workspace. Boost Productivity 【15.6" FHD IPS Display】

Enjoy a larger, clearer workspace with a 15.6" Full HD IPS display. Perfect for multitasking, presentations, spreadsheets, and everyday office productivity.

2. Work Anywhere, Travel Light 【742g Lightweight Design】

Weighing just 742g, A1 PRO is easy to carry between the office, home, meetings, and business trips—giving you a productive dual-screen setup wherever you work.

3. Connect & Work Instantly 【USB-C & HDMI Connectivity】

Dual USB-C and Mini HDMI ports provide broad compatibility with laptops, PCs, gaming consoles, and other devices. Simply connect and get to work with minimal setup.

4. Built for Flexible Working 【Integrated Kickstand】

The built-in kickstand provides quick and flexible angle adjustment without an additional stand, creating a more comfortable viewing experience for work, meetings, or entertainment

Main selling points:

- **15.6" FHD IPS Display**: Expand your workspace with clear visuals, making multitasking and daily productivity easier.
- **742g Lightweight Design:** Carry your second screen effortlessly for flexible work anywhere.
- **USB-C & HDMI Connectivity:** Enjoy quick plug-and-play setup with laptops, consoles and compatible devices.
- **Built-in Kickstand Design:** Adjust viewing angles easily for a more comfortable working experience.

Target user:

Office workers / remote workers / business travelers / students

Users who require:

- Simple and affordable productivity upgrade

- Extra screen space

- Portable second screen

1. Power Up for Best Performance ⚡
To keep your display bright and stable, please plug in a power source (5V/3A or above), as this monitor is ultra-slim and has no built-in battery.

2. Will It Work With My Phone? 📱
- **iPhone 15/16 Series:** Support Direct Connection via USB-C. ✅
- **Older iPhone Series:** A Lightning to HDMI Adapter is needed. 🔌
- **Android Devices:** Not all USB-C phones can output video. Please ensure your phone supports "Wired Screen Mirroring" (DP Alt Mode).
- **Best Result:** We highly recommend using a USB-C PD Fast Charger for a 100% stable and bright display experience.

USB-C Tablet Compatibility Guide 💡

Ready to Connect? Read This First!

1. **Power for Best Performance**
   For a brighter and more stable display, we recommend connecting the monitor to a power source rated 5V/3A or above. Most portable monitors are ultra-slim and do not include a built-in battery.
2. **Check USB-C Video Output**
   A USB-C port does not always support video output. Direct connection usually requires USB-C with DisplayPort Alt Mode or a full-featured USB-C port.
3. **Mirror Mode vs. Extend Mode**
   Tablet display behavior depends on the tablet system. Some tablets may support screen mirroring only, while others may support extended display.
4. **Best Setup Tip**
   If your tablet has only one USB-C port, we recommend using a USB-C PD charger or powered adapter for a more stable connection.

Supported USB-C Tablet Models

APPLE	• **iPad mini Series:** iPad mini 6, iPad mini (A17 Pro) • **iPad Series:** iPad 10 • **iPad Pro Series:** iPad Pro 2018 / 2020 / 2021 / 2022, iPad Pro (M4), iPad Pro (M5) • **iPad Air Series:** iPad Air 4 / 5, iPad Air (M2), iPad Air (M3)
