

Draw BEYOND.

Wacom MovinkPad Pro 14

Experience the natural feel of drawing as if on paper,
with a crisp display and high-precision pen
designed for a single purpose: pure focus.

Stay in the flow and capture
every spark of inspiration.

For professionals who demand more
from their tools,
it's an immersive creative experience
that goes beyond expectations.

wacom®

MovinkPad Pro

Wacom MovinkPad Pro 14: Create a world BEYOND your imagination.

Unprecedented immersion

By tackling the challenges of digital creation head-on and unlocking maximum performance, Wacom MovinkPad Pro 14 becomes something new: an instrument for true creative immersion.

Wacom Pro Pen 3 – Designed for the ultimate drawing experience

The Wacom Pro Pen 3 combines a design inspired by professional-grade mechanical pencils with cutting-edge EMR technology and advanced pressure sensitivity. It delivers Wacom's most precise, accurate, and smooth drawing experience to date. It is bundled with a nib holder, storing 1 Carbon Shaft POM nib, 1 Felt nib, and 1 POM nib. And by purchasing the fully customizable Wacom Pro Pen 3 (sold separately), you can adjust the grip thickness, buttons, and pen nibs into the perfect ergonomic tool for your individual work style.

14-inch OLED display, with Wacom's Premium Textured Glass for pure creation

It's 3K resolution (2880 × 1800px) and wide color gamut (100% DCI-P3) delivers vivid colors and exceptionally deep blacks. The specially treated surface reduces reflections and fingerprint smudges, helping to minimize distractions and fatigue during long periods of use. With a drawing experience this natural, you can stay fully immersed in your creative work—almost forgetting you are working on a digital screen at all.

Go from rough sketches to final edits –all on one device

With Android™ OS* on Wacom MovinkPad Pro 14, there's no need to carry a PC. Sketches created in the Wacom Canvas app can be seamlessly transferred to CLIP STUDIO PAINT for refinement. All your work is automatically saved to Wacom Shelf, allowing you to view your creations at a glance. Equipped with a Snapdragon® 8s Gen 3 processor and 12GB of memory, you can enjoy smooth performance even during memory-intensive tasks, minimizing lag for a comfortable drawing experience. Additionally, a microSD™ card slot allows you to expand storage capacity if needed.

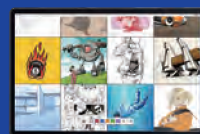

*Equipped with Android™ 15
