

SC16

USB-C TO USB-C CABLE

The SC16 is a high-quality, 300mm-long USB-C to USB-C cable designed to connect microphones with a USB-C output to compatible USB-C equipped devices. It features an in-built cable grip that is compatible with the VideoMic NTG shock mount cable management system and is particularly suitable for connecting the VideoMic NTG to USB-C mobile devices. It is also compatible with a range of RØDE products, including the Wireless GO and NT-USB Mini.

- High-quality shielded patch cable
- Cable grip for cable management
- 300mm (11.8 in) long
