

Purer Audio, Better Meeting Experience

VCM36-W is a wireless video conferencing microphone newly designed by Yealink. Due to its built-in 3-microphone array and Yealink self-developed algorithm, VCM36-W owns a 20ft (6m) and 360° voice pickup range, providing high audio quality in full-duplex calls. VCM36-W adopts wireless transmission design, and you can use it wirelessly by pairing only once, which avoids the tedious deployment process. The wireless double-encrypted can protect everything you say.

VCM36-W uses a wireless transmission design, high-quality echo cancellation technology and Yealink Noise Proof Technology, which can effectively filter out environmental noise within 90 decibels to maintaining crystal clear audio. Its high-quality sound pickup technology and large-scale conference room coverage enable you to achieve a full-scale high-fidelity audio experience in a broad space, allowing you to keep track of the status of each conference venue and control the conference more easily.

VCM36-W can work with VCS system or Yealink UVC camera, under different meeting room scenes to reduce installation costs.
